Community Project Funding Request Guidelines

Before submitting a Community Project Funding request for FY2022, please carefully review the following information. As a reminder, our office can only consider requests meeting these specific guidelines, including:

- Recipient is a state or local government or eligible non-profit—**no requests** for for-profit recipients will be considered;
- Applicant **must** provide evidence of community support for the requested project (examples could include, but are not limited to, letters of support from elected community leaders, press articles, projects listed on State intended use plans, etc.);
- Acknowledging required matching requirements—several Federal programs eligible for Community Project Funding requests require a state or local match for projects either by statute or according to longstanding policy—the Committee will **NOT** waive these requirements. This does not mean that matching funds must be in-hand prior to requesting a project, but that the applicant must have a plan to meet such requirements in order for such a project to be viable;
- Each project must be for Fiscal Year 2022 funds **ONLY** and **CANNOT** include a request for multiyear funding; and
- If the applicant is a non-profit organization, you **MUST** provide evidence that the organization is described as such under section 501(c)(3) of the Internal Revenue Code of 1986.

PLEASE NOTE: Each Subcommittee, and account within each subcommittee, will require specific information as part of your request. If you have questions regarding what will be needed as part of your request, or have any other questions, please contact our office at 202-225-5802.

Below, please find specific eligibility requirements for each subcommittee. Please ensure you read each specific subcommittee's requirements, and provide the necessary information when completing our office's request form. **Please use the corresponding form for each subcommittee to submit your request.**

Agriculture, Rural Development, Food and Drug Administration, and Related Agencies

Department of Agriculture Community Facilities Grants

Grants to purchase, construct, or improve essential community facilities, to purchase equipment, and pay other related project expenses. Essential community facilities include, but are not limited to, healthcare facilities, public facilities, public safety measures, educational services, or other community support services. Examples of eligible projects include; medical or dental clinics, towns halls, courthouses, childcare centers, police or fire departments, public works vehicles, or distance learning equipment. Any project must serve a rural area as specified in 7 CFR 3570.53, and the Member's request must demonstrate community support. Such requests are also subject to the maximum grant assistance limitations specified in 7 CFR 3570.63(b). Community Facilities grants generally cannot be used to pay initial operating expenses or annual recurring expenses, refinance existing debt, pay interest, build or repair facilities in non-rural areas, or pay for construction costs of facilities that will be used for commercial rental space.

Department of Agriculture ReConnect Program

ReConnect broadband pilot grants facilitate broadband deployment in rural areas. Grants funds can be used for the costs of construction, improvement, or acquisition of facilities and equipment needed to provide broadband service to rural areas without sufficient broadband access, defined as 10 Mbps downstream and 1 Mbps upstream. The area must be rural and lack sufficient access to broadband service. A rural area is any area which is not located within: (1) A city, town, or incorporated area that has a population of greater than 20,000 inhabitants; or (2) an urbanized area contiguous and adjacent to a city or town that has a population of greater than 50,000 inhabitants. Sufficient access to broadband is defined as greater than 90% of any rural area in which households have fixed, terrestrial broadband service delivering at least 10 Mbps downstream and 1 Mbps upstream. Mobile and satellite services will not be considered in making the determination of sufficient access to broadband. Stand-alone middle-mile projects are not eligible under the ReConnect Program. However, middle-mile facilities are eligible if they are needed to bring sufficient broadband service to all premises in the area. Members are strongly encouraged to include information in their requests, such as the number of households, businesses, or farms will be served in the area, what the performance of the service to be offered will be, and whether healthcare or educational facilities will be served.

Department of Agriculture Agricultural Research Service, Buildings and Facilities

The Agricultural Research Service (ARS) owns and operates laboratories and facilities across the United States. Many of these laboratories/facilities are decades old, have outlived their functional lifespan, and are badly in need of major repairs, renovation, or replacement. Facility requests must be for ARS-owned facilities or for facilities that will enhance ongoing ARS work. Requests can assist in the acquisition of land, construction, repair, improvement, extension, alteration, and purchase of fixed equipment or facilities as necessary to carry out the agricultural research programs of the Department of Agriculture. Members are strongly encouraged to provide details on the research to be conducted, why the research is a high priority, as well as details on the modernization and why it is critical in carrying out the research.

Request Form: https://docs.google.com/forms/d/e/1FAIpQLSdlwdsIRJjSjPMO-lzxmegfrYg3y1OtvL3LHP77SiJOuNVnQ/viewform?usp=sf_link

Commerce, Justice, Science, and Related Agencies

State and Local Law Enforcement Assistance—Byrne Justice Assistance Grants (JAG)

Byrne JAG Grants assist state, local, and tribal law enforcement efforts to prevent crime, improve the criminal justice system, provide victims' services, and other related activities. Community projects funded under this category must comply with the requirements cited in JAG statutes and be consistent with Justice Department guidance for the program. Below are the links to the Department's guidance and frequently asked questions regarding Byrne-JAG:

<https://bja.ojp.gov/program/jag/overview>

<https://bja.ojp.gov/sites/g/files/xyckuh186/files/media/document/jag-faqs.pdf>

The Committee encourages community project funding designed to help improve police-community relations. Historically, the Committee has not funded vehicles or building construction or renovation as part of community project funding under this account.

Examples of previous funding allocations under this program include:

- \$500k for anti-gang taskforce activities
- \$45k for substance abuse activities through law enforcement
- \$140k for a skills to succeed re-entry program

Community Oriented Policing Services (COPS) – Technology and Equipment

Funding will be provided for community project grants for State, local, and tribal law enforcement to develop and acquire effective technologies and interoperable communications that assist in investigating, responding to, and preventing crime, provided that such equipment meets the applicable requirements of the National Institute of Standards and Technology (NIST) Office of Law Enforcement Standards (OLEs). This funding will allow recipients the opportunity to establish and enhance any of a variety of technical equipment and/or programs to encourage the continuation and enhancement of community policing efforts within their jurisdictions. These projects should help improve police effectiveness and the flow of information among law enforcement agencies, local government service providers, and the communities they serve. Historically, the Committee has not funded vehicles or building construction or renovation as part of community project funding under this account. Recipients of community project funding under this account may not subgrant to other organizations or agencies.

Examples of previous funding allocations under this program include:

- \$300k for police technology equipment
- \$100k to upgrade emergency dispatch equipment

National Oceanic and Atmospheric Administration (NOAA), Operations, Research, and Facilities

Community project funding for NOAA will only be considered within the Operations, Research, and Facilities account. This account does not fund construction projects, and as such, any such requests will not be considered. Requests for funding will be considered for research, demonstration, or education projects performed by external partners or for prioritizing NOAA internal funds for geographically specific projects. Any such project must be aligned with NOAA's mission and within their existing authorities.

The subcommittee will not entertain requests for community project funding for the National Weather Service or the Office of Marine and Aviation Operations. Coastal Zone Management funds are distributed to states on a formula basis and will not be considered for community project funding. Historically, the Committee has not funded vehicles or building construction or renovation as part of community project funding under this account.

NASA Safety, Security, and Mission Services

Funding must be for activities consistent with and supportive of the work of NASA's mission directorates and within the agency's authorities, such as STEM education activities and scientific research. Funding for building construction or renovation projects will not be considered for community project funding.

Examples of previous funding allocations under this program include:

- \$250k for nano research
- \$350k for antenna research
- \$100k for a college fund STEM program

Request Form:

https://docs.google.com/forms/d/e/1FAIpQLSdLIqoV6ngNm1RzycOBTqc3l0cCI6Sfmv8hodi5KgHeJDEc3g/viewform?usp=sf_link

Defense

The Subcommittee on Defense will accept project requests in the following accounts:

- Research, Development, Test, and Evaluation Army
- Research, Development, Test, and Evaluation Navy
- Research, Development, Test, and Evaluation Air Force
- Research, Development, Test, and Evaluation Space Force
- Research, Development, Test, and Evaluation Defense-Wide

In previous years, Community Project Funding under the Defense subcommittee often went to universities conducting research for the Department of Defense. For context, past projects were often awarded funding in the range of \$1 to \$2 million.

Request Form: https://docs.google.com/forms/d/e/1FAIpQLSeKTs4KMazhABST51-RGySm6uGdIInmwu1dd-I5HzsKC5w3wg/viewform?usp=sf_link

Energy and Water Development and Related Agencies

Information on Community Project Funding Requests for the Corps of Engineers and Bureau of Reclamation Requests

All requests for the Corps of Engineers (Corps) and Bureau of Reclamation (Reclamation) accounts should reflect a funding amount that can be realistically utilized in FY22. In the event that the Subcommittee cannot fully fund your request, the Subcommittee may reach out to the Corps and Reclamation regarding useful increments of funding.

Please note that for the Corps, the Subcommittee may provide funding for a very limited number of new start projects, if any, in the Investigations, Construction, and Mississippi River and Tributaries accounts. While requests for new starts in these accounts will be accepted, please consider this limitation when making requests.

Please note that for the Corps, the Subcommittee may provide funding for a limited number of Environmental Infrastructure projects, if any, in the Construction account. While requests for specific projects will be accepted, please consider this limitation when making requests. For these projects, please provide the requested information in the appropriate place in the “Supplemental Questions” tab of database.

Please note that for the Corps, the Subcommittee may include a very limited number of Continuing Authorities Program projects, if any, in the Construction account. While requests for specific projects will be accepted, please consider this limitation when making requests. For these projects, please provide the requested information in the appropriate place in the “Supplemental Questions” tab of database.

Projects authorized under sections 4007, 4009(a), and 4009(c) of the Water Infrastructure Improvements Act for the Nation (WIIN) Act of 2016 (Public Law 114–322) will not be accepted.

Request Form:

https://docs.google.com/forms/d/e/1FAIpQLSf5ozXyzzO893n77BXgnFjaZ4SlxXLBS3KsA9Hk3xu-iO3i-Q/viewform?usp=sf_link

Financial Services and General Government

Small Business Administration, Small Business Initiatives

Under this option, Members may submit funding requests for Community Projects in support of small businesses, such as entrepreneur training, workforce development, counseling, research, and construction or acquisition of facilities. Project recipients must be other units of government or nonprofit organizations to be considered eligible.

For each Community Project request, Members will be asked to respond to a series of questions intended to provide transparency and ensure the Community Project is a valuable use of taxpayer funds. The type of information that will be requested includes:

- Name of the project recipient, including any sub-recipients/grantees,
- Location of the Community Project,
- Cost of the project, including the amount requested for the Community Project from this or any other Appropriations Subcommittee, and other funding sources,
- Explanation of the request, including purpose and benefits provided by the Community Project, and
- Oversight and management structure for the Community Project, including accountability measures and performance standards to evaluate success.

Project funding requests under this account will likely range from \$100k to \$200k.

Request Form: https://docs.google.com/forms/d/e/1FAIpQLSdGV6rSPLN1m-ZcvFXjXO3EzdrpQjyuWuje19vLoVLBR844Q/viewform?usp=sf_link

Homeland Security

Pre-Disaster Mitigation Projects

Only projects that meet the requirements detailed in the most recent Notice of Funding Opportunity for the Building Resilient Infrastructure and Communities (BRIC) grant program will be considered for funding, including the cost-share requirement and environmental and historic preservation requirements, as applicable. For any projects designated for funding in the final fiscal year 2022 Homeland Security Appropriations Act, the state agency responsible for administering mitigation grants in the requestor's state must submit an application to the Federal Emergency Management Agency, and that entity will serve as the administrative agent for the grant. Therefore, all project proposals must be accompanied by a letter of support from the appropriate state agency affirming that it believes the project is eligible.

Please pay careful attention to FEMA's eligibility requirements when answering the following questions:

1. Is the requesting jurisdiction a state, Indian tribal government, local government, or territory as defined by section 102 of the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5122)?
2. Is the proposed project eligible under the most recent Notice of Funding Opportunity for the Building Resilient Infrastructure and Communities grant program?
3. Can the requesting jurisdiction provide the required non-federal cost share, consistent with 2 CFR Sections 200.29, 200.306, and 200.434?
4. Can the requesting jurisdiction provide a Cost-Benefit Analysis or other documentation that validates cost-effectiveness, which is defined by FEMA as having a Benefit-Cost Ratio (BCA) of 1.0 or greater? A non-FEMA BCA methodology may only be used if preapproved by FEMA in writing.
5. Is the proposed project consistent with the goals and objectives of a FEMA-approved state, territorial, or tribal mitigation plan and the adopted mitigation plan of the local jurisdiction?
6. Can the recipient describe how the project provides long-term permanent risk reduction, i.e., it is not used for emergency protective measures?
7. Can the recipient describe how the project takes into account future conditions?
8. Can the recipient describe how the project supports the needs of vulnerable populations?
9. Does the recipient specifically encourage the adoption and enforcement of the latest disaster resistant building codes?

10. Community engagement and support is crucial in determining which projects are worthy of federal funding. Please describe or include evidence of community support that were compelling factors in the Member's decision to submit this project request, including letters of support and any relevant links to information posted on the Member's website or other online sources.

The max project funding under this account will likely be \$1 million.

Nonprofit Security Grant Program Projects

Only projects that meet the requirements detailed in the most recent Notice of Funding Opportunity and the Preparedness Grants Manual for the Nonprofit Security Grant Program (NSGP) will be considered for funding. For any projects designated for funding in the final fiscal year 2022 Homeland Security Appropriations Act, the respective state administrative agency (SAA) must submit an application to the Federal Emergency Management Agency, and the SAA will serve as the administrative agent for the grant. Therefore, all project proposals must be accompanied by a letter of support from the appropriate SAA affirming that it believes the project is eligible.

Please pay careful attention to FEMA's eligibility requirements when answering the following questions:

1. Is the entity for which funding is proposed a non-profit organization as described under section 501(c)(3) of the Internal Revenue Code of 1986 and exempt from tax under section 501(a) of such code?
2. Is the proposed project eligible under the Nonprofit Security Grant Program per the most recent Notice of Funding Opportunity and the Preparedness Grants Manual?
3. Is the entity for which funding is proposed able to demonstrate that it is at high risk of a terrorist attack?
4. Does any derogatory information, as well as any potentially mitigating information, exist that would render the entity potentially unsuitable for receiving a grant from the Department of Homeland Security?
5. Community engagement and support is crucial in determining which projects are worthy of federal funding. Please describe or include evidence of community support that were compelling factors in the Member's decision to submit this project request, including letters of support and any relevant links to information posted on the Member's website or other online sources.

The max project funding under this account will be \$100,000.

Emergency Operations Center Grant Program

Only projects that meet the requirements detailed in the most recent Notice of Funding Opportunity for the Emergency Operations Center Grant Program, including the cost-share requirement and environmental and historic preservation requirements, as applicable, will be considered for funding. For any projects designated for funding in the final fiscal year 2022 Homeland Security Appropriations Act, the respective state administrative agency (SAA) must submit an application to the Federal Emergency Management Agency, and that agency will serve as the administrative agent for the grant. Therefore, all project proposals must be accompanied by a letter of support from the appropriate SSA affirming that it believes the project is eligible.

Please pay careful attention to FEMA's eligibility requirements when answering the following questions:

1. Is the requesting jurisdiction a state, Indian tribal government, or local government as defined by section 102 or 602 of the Robert T. Stafford Disaster Relief and Emergency Assistance Act, 42 USC 5122, 5195a?
2. Is the proposed project eligible under the most recent Notice of Funding Opportunity for the Emergency Operations Center Grant Program?
3. Can the requesting jurisdiction provide the required 25 percent non-federal cost share?
4. Is the requestor in a position to enhance their emergency management capabilities and address their Emergency Operations Center needs?
5. Community engagement and support is crucial in determining which projects are worthy of federal funding. Please describe or include evidence of community support that were compelling factors in the Member's decision to submit this project request, including letters of support and any relevant links to information posted on the Member's website or other online sources.

Likely max project allocations under this account will be approximately \$250,000 for renovations and \$1 million for construction.

Request Form:

Interior, Environment, and Related Agencies

Land Acquisition Through the Land and Water Conservation Fund

Federal acquisition of lands and water and interests therein must be for the purpose of land and habitat conservation and the encouragement of outdoor recreation, as established by the Land and Water Conservation Fund (LWCF) Act of 1965. Land acquisition project requests funded from the LWCF should be requested through the agency that would manage the land being acquired. The four land management agencies are: within the Department of the Interior, (1) the Bureau of Land Management, (2) the Fish and Wildlife Service, (3) the National Park Service; and within the Department of Agriculture, (4) the Forest Service. Third party organizations (i.e. The Nature Conservancy, Trust for Public Land, etc.) frequently participate in the federal acquisition process by coordinating the negotiation and purchase of tracts. If the project you are requesting involves a third-party organization, please be mindful that funding for a land acquisition project goes to the agency that will manage the land. The Great American Outdoors Act of (Public Law 116-152) and the Consolidated Appropriations Act, 2021 (Public Law 116-260) mandates that the president submit, along with the upcoming fiscal year's budget request, proposed and supplemental project lists. The Committee will look favorably upon requests for projects that appear in either of these lists. When submitting your request, please indicate whether the project is on these lists.

State and Tribal Assistance Grants (STAG)

The vast majority of requests made to the Interior Subcommittee are for STAG infrastructure grants. These grants fund local wastewater and drinking water infrastructure projects. This includes construction of and modifications to municipal sewage treatment plants and drinking water treatment plants. Similar to past practice, the Committee will be limiting STAG infrastructure grants only to projects that are publicly-owned or owned by a non-profit entity and that are otherwise eligible for the funding from that state's Clean Water or Drinking Water State Revolving Funds (SRF) loan programs. Privately-owned projects are NOT eligible for infrastructure grants, even if they are otherwise eligible for assistance under a SRF program. The Committee will look favorably upon requests for projects that are listed on a state's most recent Intended Use Plan. There is a minimum 20% cost share requirement for any portion of a project funded through a STAG infrastructure grant. For example, a \$1 million project could receive a maximum of \$800,000 from the Federal government, with the remaining \$200,000 the responsibility of the grantee. In almost all cases, other federal funds cannot be used to meet this 20% cost share. Ability to fund the 20% cost share is required before EPA can award a STAG grant. Please note that only the non-federal portion of assistance provided by a SRF can be applied towards a project's matching requirement. STAG projects have very specific eligibility requirements, and the Committee will not consider projects that do not meet those requirements.

State and Private Forestry

The Forest Service is an agency within the Department of Agriculture. Requests that do not fit into the described categories below are unlikely to be eligible for funding under the Forest Service. The State and Private Forestry account provides technical and financial assistance, usually through the network of State Foresters, to improve the management, protection, and utilization of the Nation's forests. Community projects are usually limited and include various specific urban and community forestry projects and specific forest disease or pest treatment

areas. Members may also request specific State fire assistance projects or specific forestry assistance projects in this account. The Committee will look favorably upon requests for projects that are listed on any federal or state ordinal list or are clearly demonstrated to meet the goals of a State Forest Action Plan(s).

Request Form:

https://docs.google.com/forms/d/e/1FAIpQLScy78a9F_JWhjY8nJtAatLT7JcsTCqKEKIbD2E_0OrwBhuWhg/viewform?usp=sf_link

Labor, Health and Human Services, and Related Agencies

Employment and Training Administration

The Workforce Innovation and Opportunity Act demonstration program is the only Labor Department program that supports community project funding. Community project funding is designated under Training and Employment Services. These projects must meet all statutorily mandated requirements, except that they are exempt from the requirement to compete. In addition, all projects must:

- 1) Include direct services to individuals to enhance employment opportunities;
- 2) Demonstrate evidence of a linkage with the State or local workforce investment system; and
- 3) Include an evaluation component.

Equipment purchases may be included within community project funding only as an incidental part of the entire project. A similar standard applies to curriculum development, which should be incidental to the project's emphasis on direct services to individuals. Community project funding cannot be used for construction or renovation of facilities.

Health Resources and Services Administration (HRSA)

The Subcommittee has historically provided community project funding only in the categories listed below. Requests that do not fit into one of these categories are unlikely to be eligible for community project funding under HRSA.

Health Facilities Construction and Equipment—grants to help with the cost of construction, renovation, or capital equipment for facilities for provision of health, mental health, or substance abuse services, training of health professionals, or medical research. Examples of eligible facilities include hospitals; health centers and clinics; skilled nursing facilities; mental health centers; facilities for schools of medicine, nursing or other health professions; and medical research laboratories.

In addition to construction and renovation, grants can be used to acquire capital equipment, such as lab equipment or x-ray machines. Equipment-only grants—that is, grants not involving construction—are permissible (and commonly done). Generally, any equipment having a useful life of more than one year and a unit cost of at least \$5,000 will be eligible as capital equipment. In addition, equipment with lower costs may also be eligible, provided that it is treated as an item of capital expense under the recipient institution's pre-existing, written accounting policies. Equipment expenses for health information systems and electronic medical records systems are permitted expenditures. The costs of expendable supplies such as pharmaceuticals, lab chemicals, or office paper are not eligible.

HRSA Health Facilities grants cannot be used to acquire land or purchase existing buildings, or to pay salaries or other operating costs. They cannot be used to pay for work previously completed. Grants can be used for architectural and engineering costs associated with an eligible construction project, but cannot be used for general feasibility studies.

Health Professions Education and Workforce Development—grants for projects to improve education and training of health care professionals, or to analyze health workforce trends and needs.

Rural Health Outreach—grants for projects to improve health care in rural areas. Examples of eligible activities include medical, dental, or mental health care services, health promotion and education, chronic disease management, and improvements to emergency medical services. Grant funds can be used for services only in areas that meet HRSA’s definition of rural. For lists of eligible areas and further information regarding that definition, see: <https://www.hrsa.gov/rural-health/about-us/definition/index.html>.

Rural Health Research—grants to support research on rural health problems and ways of improving health care in rural areas.

Telehealth and Health Information Technology—funding for telemedicine, distance learning, or use of information technology to improve health care.

Substance Abuse and Mental Health Services Administration (SAMHSA)

Community project funding within SAMHSA should be submitted through the Health Surveillance and Program Support account. Community project funding must fall under one of the following categories:

Mental Health—grants to support programs that promote the prevention or treatment of mental health disorders, including rehabilitation, outreach, and other support services.

Substance Abuse Treatment—grants to support programs that improve access, reduce barriers, and promote high quality, effective treatment and recovery services.

Substance Abuse Prevention—grants to support programs to prevent the onset of illegal drug use, prescription drug misuse and abuse, alcohol misuse and abuse, and underage alcohol and tobacco use.

Community project funding cannot be used for construction (other than a limited amount of renovation necessary to carry out a funded project).

Elementary and Secondary Education

Innovation and Improvement. Community project funding for elementary and secondary education should be submitted through the Innovation and Improvement account. Elementary and secondary education community project funding includes instructional services, afterschool centers, curricula development, teacher training, acquisition of books and computers, arts education, social and emotional learning activities, full-service community schools, and early childhood education. In general, the focus of elementary and secondary education community project funding should be providing early childhood or K-12 educational services. Community project funding to provide and improve special education services at the elementary and secondary levels are also eligible under elementary and secondary education. Community project

funding may include early intervention services for infants and toddlers, transition services, and postsecondary education services.

Eligible grantees are state education agencies, school districts, colleges and universities, and other public and private nonprofit entities. Generally, community project funding intended for individual schools is provided to the applicable school district and not directly to the individual school. Community project funding cannot be used for construction or renovation of school buildings, except in the case of minor remodeling required as part of technology upgrades. Daycare and childcare projects that do not include educational services are also not eligible.

Postsecondary Education

Fund for the Improvement of Postsecondary Education (FIPSE). Community project funding can be designated under this heading for a wide variety of higher education projects. Generally, community project funding should focus on improving access to, or the quality of, postsecondary education. Community project funding cannot be used for construction or renovation of academic buildings, except in the case of minor remodeling required as part of technology upgrades.

Examples of the types of projects that can be funded under FIPSE include projects to hire and train faculty, establish and improve degree programs, improve teacher preparation programs, develop and improve curricula, upgrade technology and telecommunications, acquire science laboratory equipment, provide student support, implement university partnerships with school districts, and establish research and training centers.

Grantees are usually colleges and universities, but may include other public and private nonprofit organizations.

Except where specifically authorized, community project funding cannot be used for construction (or the acquisition of property) or renovation of buildings. In addition, grantees may not restrict participants based on race, ethnicity or gender. Finally, recipients of community project funding may not sub-grant to other organizations or agencies.

Request Form:

https://docs.google.com/forms/d/e/1FAIpQLSffMvIE3NNicXvswdaoZ_3PEN3p8_7La1DNiFfGbuUwCzIbiQ/viewform?usp=sf_link

Military Construction, Veterans Affairs, and Related Agencies

Construction and Unspecified Minor Construction– Active Components

Eligible community project requests include both construction and unspecified minor military construction projects for active components. An unspecified minor military construction project is a project that has an approved cost equal to or less than \$6,000,000. The types of projects under this heading include construction, installation, equipment of temporary or permanent public works, military installations, and facilities for the accounts listed below:

- Army
- Navy and Marine Corps
- Air Force
- Defense-Wide Agencies (SOCOM, DHA, etc.)

Construction and Unspecified Minor Construction– Reserve Components Eligible community project requests include both construction and unspecified minor military construction projects for Reserve Components. An unspecified minor military construction project is a project that has an approved cost equal to or less than \$6,000,000. Some Reserve Component projects require a State funding match. Requesting offices must determine whether the proposed project requires such a match and if so, confirm that the project has current State match funding before the request can be considered. The types of projects under this heading include construction, expansion, rehabilitation, and conversion of facilities for training and administration for the accounts listed below:

- Army National Guard
- Air National Guard
- Army Reserve
- Navy Reserve
- Air Force Reserve

Planning and Design- The types of projects under this heading include improving facility resilience, study, planning, design, and architect and engineer services for the accounts listed below:

- Army
- Navy and Marine Corps
- Air Force
- Defense-Wide Agencies (SOCOM, DHA, etc.)
- Army National Guard
- Air National Guard
- Army Reserve
- Navy Reserve
- Air Force Reserve

The eligible lists of community projects are those that are submitted to Congress by the Secretary of Defense or his/her designee. Projects that only appear on a list or FYDP provided by a base commander will not be accepted. Such lists include:

- Future Year Defense Program (FYDP) – FYDP is a projection of the forces, resources, and programs needed to support Department of Defense (DOD) operations over a five-year span. The FYDP is released simultaneously with the President’s budget request. The updated document listing projects eligible for FY 2022 will be obtainable after the FY 2022 full budget rollout, through the Under Secretary of Defense (Comptroller) website: <https://comptroller.defense.gov/Budget-Materials/>
- Unfunded Requirements/Unfunded Priorities Lists (UFRs/UPLs) – UFRs/UPLs are lists that each Service provides to Congress that identify priority projects which were not included in the President’s budget request. These lists must be approved by the Secretary of Defense. UFRs/UPLs become available to Congress on the date of the President’s full budget release (not skinny budget) and can be found by contacting the Congressional Liaison Offices of the Armed Services.
- Cost-to-completes (CTCs) – CTCs are projects that have previously received an appropriation but require additional funding for completion. These lists represent the requirements identified by each Service for the additional funding necessary to complete a project. The lists are approved by each Service Secretary and can be obtained by contacting the Congressional Liaison Offices of the Armed Services.

These lists include projects, ongoing and upcoming, that ensure long-term viability, better readiness, increased resiliency, improved living and working conditions for service members and their families, and significant cost savings in perpetuity. Once FY 2022 lists are released to Congress, the subcommittee will recirculate this guidance with active hyperlinks so that you will be able to be routed to the official document.

As indicated above, some Reserve Component projects will additionally require a corresponding State funding match. Please verify said funding before submission. The Committee will not waive match requirements.

Request Form: https://docs.google.com/forms/d/e/1FAIpQLSdprK-QGUgp_xZ9lXsLlXpJswnrSS1bfsL3KoTN27_1BQLrCw/viewform?usp=sf_link

Transportation, Housing and Urban Development, and Related Agencies

Local Transportation Priorities are highway and transit capital projects eligible under title 23 and title 49 of the United States Code. Eligible projects are described under Section 133(b) of title 23, United States Code. Tribal and territorial capital projects authorized under Chapter 2 of title 23, United States Code, are also eligible.

All projects must be:

- Capital projects or project-specific planning/design for a capital project.
- Supported by the state or local government that would administer the project. Inclusion on a Statewide Transportation Improvement Plan (STIP) or Transportation Improvement Plan (TIP) would satisfy this requirement.
- Administered by public entities.

The Subcommittee will not fund activities that are administrative in nature even if they are eligible expenses under the statutory citation. These include general operating expenses, and activities required under sections 134 and 135 of title 23, United States Code.

Airport Improvement Program community project requests may be used for enhancing airport safety, capacity, and security, and mitigating environmental concerns.

All projects must be:

- AIP eligible in accordance with sections 47101 to 47175 of title 49, United States Code, and FAA policy and guidance.
- Supported broadly by local stakeholders, including residents, businesses, and elected officials.
- Administered by an airport and/or airport sponsor.

Economic Development Initiative community project requests may be used for economic and community development activities, including land or site acquisition, demolition or rehabilitation of housing or facilities, construction and capital improvements of public facilities (including water and sewer facilities), and public services. Requests may also include planning and other activities consistent with the underlying authorization for the Community Development Block Grant program within HUD. EDI community project requests are not eligible for the reimbursement of expenses for activities already undertaken (including debt service or debt retirement).

All projects must be:

- Supported broadly by local stakeholders, including residents, businesses, and elected officials.
- Administered by governmental or non-profit entities, including public housing agencies, as well as tribes and tribally designated housing entities.

Likely project allocations under this account will range between \$25,000 and \$2.5 million.
